Evolving spaces, flexible designs

(for evolving, flexible minds)

Today's classrooms hardly resemble those of a generation ago—and they won't look much like teaching and learning spaces a decade or two from now, either.

At izzy+, we've been studying learning dynamics for a long time and have arrived at four key factors that are constantly shifting and interacting: **students**, **technology**, **space**, and **pedagogy**. We leverage great design to create as much synergy as possible among them. That's where Dewey comes in!

technology

pedagogy

space

students

Our journey with Dewey stretches back to 2006, when we began getting more and more requests for customized, technology-friendly classroom furniture. In 2007, we invited designer Joey Ruitter to join us in our research and exploration, which eventually led to launching Dewey in 2009 (and earning a Best of NeoCon award!).

Dewey was designed to earn top marks in four critical areas:

Flexibility: Today's varied teaching and learning styles call for furniture that can quickly and easily shift into different configurations, whether the focus is on the instructor, on student collaboration, or on a distance learning screen.

Durability: To withstand the rigors of frequent rearranging and constant use, Dewey was designed with long-lasting materials and components, from cast and extruded aluminum bases to urethane table edges.

Technology integration: A smart approach to technology—accommodates today's devices and anticipates tomorrow's, for ultimate flexibility and long-term relevancy.

Timeless Design: Furniture this flexible, durable, and technology-friendly calls for a clean design that will continue looking relevant throughout its long life.

Always up for anything (except the ordinary)

Choose from optional aluminum frame or work surface-mounted modesty panels.

Why conform to your space when you can create a space that conforms to you? One room full of ultra-flexible, easy-to-reconfigure Dewey can become so many different things to so many different people, from the day's first class to lights out.

Dewey is available with a flip-top option for nested storage or a folding option for flat storage.

Two edge profiles are available: urethane with a knife-edge profile or 2MM edgeband with a straight profile.

Urethane

2MM Edgeband

Bringing people together

(that's when the magic happens)

Dewey's extra-wide caster rolls easily and also locks in place when needed.

Tables are offered with pinset or crank-height adjustment options to accommodate ADA requirements. The handle pulls out to adjust, then tucks neatly underneath the surface.

Collaboration and conversation are key in today's classrooms and training rooms, which is why we created new table shapes that actually foster connection and group activity. Not only can six people get closer together around a Dewey 6-Top (without skimping on the work surface), it also offers a more efficient footprint when space is at a premium.

The Dewey 6-Top brings people closer together, making it easier to share technology and ideas.

The half-length Connection Cart floats over seated height work surfaces, making it easy to share ideas and concepts.

Always happy to help

(but maybe not so much on weekends)

Seated-height helpdesk

The Helpdesk is available in seated-height or standing height versions, with pin-set, crank height or electric height adjustment options.

Rack-mount storage keeps technology organized and accessible with locking back panel and vent/fan options.

Instructors move around the room more than ever, but they still need a home base. Today's version of the teacher's desk should be inviting and approachable, encouraging conversation while supporting technology. The Dewey Helpdesk does it all.

Connection, connection, connection

(the mantra for a different kind of real estate)

Learning is all about making connections—between people and ideas, words and images, and the past and future. Whether you're relying on high-tech or low-tech methods of bringing it all together, the Connection Cart is all about helping people reach those ah-ha moments.

Connection carts are available in two heights and include the option for markerboard surfaces, tackable fabric and technology support.

Optional side-mounted container and wire management accessories are also available.

A winsome supporting cast

(that does more than just look good)

The Dewey Bench is available in 4 lengths and comes with Nano-Tex® and Dura-Block® fabric coating that is designed to resist stains and liquid. Coffee spill? No problem.

The Lectern is available in two sizes with an optional locking storage cabinet for books and supplies. Pneumatic height adjustable, it's the perfect companion to a presentation or lecture where movement is key.

Create a space that's interesting and inspiring—one that invites people to explore new materials, capture seeds of ideas, and launch spontaneous conversations. Bookshelves serve double-duty as space dividers, benches instantly create useful third spaces (for a spontaneous chat or some “me-time”), and cabinets keep technology handy. Dewey's the whole deal.

The Dewey Bookshelf is available in freestanding or wall-mounted versions. Shelves can be adjusted vertically or positioned in both directions for a two-sided aesthetic.

Let's make plans

(for your space—or for coffee!)

Whichever Dewey table style you choose, you've got a collection of products that's ready to support a variety of needs and solutions in your classroom or training room.

Problem solved. Small groups solve problems together. The instructor moves from group to group, lending ideas and posing challenges. Laptops are close at hand and powered up.

Dewey Table, Media Cabinet, Bookshelf, Bench, Buddy: dover white laminate, cloud melamine, dolphin urethane edge, silver frame.
Hannah chairs by izzy: jay, silver frame.

Room Capacity 24

Break it down. Splitting into smaller groups makes large classes more manageable, encouraging the free flow of discussion and ideas.

Dewey Table, Helpdesk, Bookshelf: monticello maple laminate, dolphin urethane edge, silver frame. Webster chairs by Fixtures Furniture: peacock, silver frame.

Room Capacity 24

Team up for a win. Collaborate. Discuss and debate. See everyone else. Facilitating better conversations and more idea sharing.

Dewey 6-Top Table, Buddy: weathered ash laminate, otter urethane edge, silver frame. Connection Cart, Half-Height Markerboard. HÅG H04 Communication chairs: Maharam Medium Laser, silver frame.

Room Capacity 28

Easy access. Power laptops, share ideas or delve into a serious debate.

Dewey Table, Helpdesk, Media Cabinet, Bookshelf: wild cherry laminate, cloud melamine, dolphin urethane edge, silver frame.

Room Capacity 24

Stadium style. Don't miss a thing happening up front, even if you're in the back.

Dewey Table, Helpdesk, Media Cabinet, Bookshelf: huntington maple laminate, cloud melamine, dolphin urethane edge, silver frame.

Room Capacity 24

Flex it. Be ready to move with furniture on wheels that readily follows your lead (and helps students flex their minds).

Dewey Table, Helpdesk, Bookshelf, Bench: steel mesh laminate, folkstone melamine, koala urethane edge, silver frame
Momentum Hue Chipotle on benches.
HÅG wing chairs: white, silver frame

Room Capacity 24

V is for victory. Instructors and students can easily see one another, supporting discourse and dialogue.

Dewey Table, Helpdesk, Lectern: dover white laminate, cloud melamine, wolf urethane edge, silver frame.
Sling Swivel-Tilt chairs by Harter: Momentum Origin Eureka, silver frame.

Room Capacity 20

Be inviting. When spaces are both functional and cool, people are more likely to gather and interact.

Dewey Table, Bookshelf Bench: dover white laminate, wolf urethane edge, silver paint.
Momentum Hue Eggplant on benches.
Smile chairs by Fixtures Furniture: purple martin, silver frame.

Room Capacity 26

Focus. Get a good view of the presentation, or concentrate on your individual work with this ordered, straight-forward approach.

Dewey Table, Helpdesk: dover white laminate, platinum melamine, wolf urethane edge, silver frame.
