

HELLO MONTISA

If buying furniture for your workplace feels like a job, it's time to try Montisa. Our products are simple: just good solid pieces made from honest materials and designed for a hard day's work. We make every order on demand, producing desks, workbenches, tools, stools, and storage systems in small batches and delivering just what you want without confusion or compromises.

Our history goes way back, and our promise to you goes way ahead. From our humble beginnings making steel-legged milking stools, we've come out of the barn and into places where people earn their livings today. Our products have evolved, but they are still based on practical solutions for everyday challenges, and still made to last. We'll stake our name and our 100 Year Guarantee on it.

WE MAKE LIGHT WORK OF HEAVY-DUTY FURNITURE

Make an open, natural gathering spot for your team to get together, collaborate and brainstorm ideas. Pull up an Elton stool, drop your bag on a Byrd hook, grab supplies from the Billie storage, and spread out to work on the Billie C-top. Your pick of concrete, steel, or reclaimed wood table tops lets you turn up the style.

Face to face or side by side? These versatile pieces let you decide how much to interact, promoting concentration, collaboration, and “a-ha” moments at work. Elton stools and Crosby tables lend industrial chic to the room, while scalable Armstrong lockers and your choice of table top materials shape the space to fit your needs.

Mix in a little storage and a whole lot of connectivity. Classic Dolby desks are jazzed up with a central Stevie drawer and a row of outlets that spans the whole work area. A Shuggie stand keeps your phone handy for chats or playing tunes, and leather-topped Elton stools give you an upscale place to perch.

It's time to pack some serious style into your storage. Try color-blocked Dizzy lockers to dress up a wall, a rounded-edge Russ pedestal tucked neatly beneath a May table, or a counter-height block of Benny lockers with a contrasting wood surface and room for a row of Elton stools along the back.

Invite everyone to the table whether they're in the office or on the monitor. Billie storage holds a flat screen for presentations and conferencing, and a custom table stretches as far as you like, making room for lots of people to pull up an Elton stool and put their heads together.

Pump up the volume with custom color combinations that get the whole room shaking. Electric blue legs make a Gibbons table pop, and a deeper blue turns Oscar storage into something out of the ordinary. A white Bootsy monitor stand and leather-topped Elton stools complete the vibe.

B.Y.O.E

Too often, “one-size-fits-all” solutions don’t fit anyone perfectly. They’re simple for the companies that make them, but less than satisfying for the people who use them. At Montisa, we’ve taken the opposite direction with an approach we call “B.Y.O.E,” or Build Your Own Environment. Modular from top to bottom, our collection fits together in all kinds of ways to meet the needs of one customer: you. We can help you make the most of small spaces and

easily stretch to fit bigger ones as you grow. Our products are at home in private offices, open floor plans, conference rooms, and small team zones. Lengths, widths, and heights are in your court, and we’ve made it simple to stack many pieces or gang them side-by-side to fit your needs. Finally, thanks to our wide range of finishes and unlimited custom colors, you can make the environment that you build express your personality to a T.

Love the layered look? Simple shapes, classic materials, and unlimited colors give you loads of creative options. Start with a Harrison table and return, stack a Sonny storage unit on top, and top Billie storage with a fabric pad to create easy bench seating. A Bootsy monitor stand and portable Townshend laptop stand help you get comfy while you work.

Add a little bling to everyday basics with unexpected shapes and colors. A Perry table can stand on its own or turn into picnic-style seating with long or short benches along the sides—the lengths and finishes are up to you. Pick a matching or contrasting color for Dinah storage to tie the whole room together.

Get up, get down, and get to work with an adjustable-height Mercury desk. Boxy shapes and perforated panels rock the retro look, Bootsy monitor stands and Shuggie mobile support keeps technology at your service. A matching Elton stool offers a place to rest your legs and slides out of the way when you're ready to stand up and stretch.

When you need a little space of your own, Billie storage and Clapton desks are the perfect pair. Alternate the open sides of Billie to work for everyone in the group, adding felt or whiteboard panels to make the back sides work and look smart, too. A Teddy file caddy and Verdine bag holder help keep your desk top neat and clean.

Old-school industrial chic is perfectly at home in today's reclaimed workspaces. Booker storage makes room for display and organization along a wall. An unexpected color brings the Gordon and Howard tables instantly up to date, and practical touches like casters and a row of easy-access outlets keep you rocking and rolling throughout your day.

When someone puts the work into setting the stage, the whole gig goes that much smoother. A Chet filing cabinet and Dizzy lockers do the heavy lifting, while Cole drawers and a Russ pedestal under the Hendrix desk keep important papers next to you. Extra supports add all the bells and whistles, from a Bootsy monitor stand to a Byrd hook, Marvin laptop stand, Shuggie mobile stand, Sly caddy, Stevie drawer, Teddy file caddy, and Verdine bag sling.

Looking for a place where the whole team can get together? This one fits the bill. Ella storage adds a little organization, and a Harrison table creates a sense of harmony, allowing you to pair a beautiful table top with stamped legs in standard finishes, custom colors, or a clear coat to show off their industrial style.
